Clubs After Losing Case COUNSEL ARGUES ON **EVIDENCE QUESTION** IN DISCOUNT TRIAL

Admission Of Pamphlet Is Causing Heated Contest Between Lawyers In Case

Cleveland, O., March 25 - Heated argument was continued today in the trial of Josiah Kirby, and Raymond Poland, former officers in the Cleveland Discount Company, when counsel for the defense battled to prevent the admitting as evidence of a pamphlet entitled; "Retirement of preferred stock,'

Th defense Argued that this pamphlet, issued three months after the date when the alleged false financial statement was issued, did not tend to show a motive for misguiding stockholders of the company. The prosecution contended that the plan set down in the booklet was a follow up on the financial statement and was

an important point in the evidence. Common Pleas Judge Cull stipulated to admit this evidence if the state linked a background of evidence substantial enough to warrant it

The pamphlet, the state declares, has to do with a plan whereby the stock holders of the Cleveland Discount Company at that time could exchange a share of preferred stock for two shares of common stock, or

"If the stockholders were to look read the pamphlet they would be induced to turn over their preferred stock," Special Prosecutor Higley said after previous argument that the common stock had been made "to look attractive because of alleged nadded figures."

TEAPOT DOME EQUITY SUIT ENTERS FINAL STAGE AT CHEYENNE

Defense Counsel Arguing For Sinclair And Roberts Will Close For Government

Cheyenne, Wyo. March 25-The Teapot Dome equity suit the most momentous oil litigation ever instituted in the United States swung into its last lap today as George Hoover, of Washington, and Martin W. Roberts planned to close the government's case in a summing up late this afternoon.

Hoover will discuss the fundamental principles of law applicable to the issues at stake, while Littleton's oratory is expected to center around an attack upon congress as a result of that body's action in demanding the annulment of a lease which he will argue, was consummated under a act passed by the legislative body itself. KIDNEYS BOTHER

Take a Tablespoonful of Salts if Back Pains or Bladder Is Irritated

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush off the body's urinous waste. get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the edds in the system so they no longer irritate, thus often relieving bladder

Jad Salts is inexpensive; can not infure and makes a delignitud effer vescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.

A NOTABLE RETREAT

WHEN Russia turned Bolshevik in furtherance of the communistic idea it was sought to abolish all forms of curreacy. In order to achieve this result bills were printed in such abundance as to make them worthless. In making the money in circulation worthless the soviet won a victory, but it did not succeed in convincing all the Russians that a currency is an evil. Communism tried hard enough to establish conditions under which money would be useless, but utterly failed. The masses still clung to the idea that a measure of values, a convenient medium of exchange, is indispensable, Without it trade languished.

Some time ago the soviet authorities admitted their defeat and tried to reestablish a stable currency. Another step in furtherance of that end is now announced. Gold coinage will be resumed. Bills with the soviet flat may suggest a doubt, but gold of a certain fineness is an international coin. It needs no stamp to guarantee its value. Most things Russian are subject to suspicion at present, but the gold tchervontsi will be as current as a gold dollar. Therein is the value of a gold coin. It speaks the same language every-

Experience is a faithful teacher. Bolshevist theories believed they could break the customs of ages and establish a government on the principle that one who had should give freely to another who hadn't. They reckoned without consulting the one who had. As a substitute barter was found too cumbersome. Now a complete retreat is made and the standard of currency of the capitalistic nations is adopted without even so much as an apology. It constitutes a notable recession from communistic theory.

A WORTHY TRIBUTE

MOVEMENT is on foot to obtain the nomination of A Edwin Booth for election to the Hall of Fame at the coming quinquennial election.

It would be a worthy tribute, not only to the American stage, but to universal scholarship and the highest attributes of American manhood if this agitation should prove success-

The Hall of Fame enshrines in memory those who, gone from us forever, represented each in his sphere the best in art or achievement. If this be the test, there is no more virile candidate today than Edwin Booth for entrance into this congregation of the immortals.

It was not alone the dramatic genius of Booth which endeared him to his fellows and gave him lasting fame. His personality in private life, as well as in public, was of that order which gives nobility to the race of men. In addition to this, his art was as great as his head; for he was a philanthropist as well as a philosopher.

Time has not dimmed the luster of his fame. He still stands pre-eminent as the master exponent of the spoken drama in America, and perhaps in the world since his advent upon the stage. At any rate, his name in a world-wide sense survives with the names of Irving and Salvini; an incomparable trio in dramatic history, strangely ordained to be contemporaneous.

If we are to honor manhood, as well as art, with all that is worthy of the higheer attribute of civilization which we designate as culture, Edwin Booth is pre-eminently qualified for the honor now sought to be bestowed upon his memory, and the American public will suffer grievous disappointment if the distinction proposed for him is not conferred.

-brings joy to you and your friends.

EVERY man, woman and child wants to have strength and correct weight. It means the joy of living. To be minus strength and underweight often proves low fightingpower in the body. It often means you are minus nerve-power, minus red cells in your blood, minus health, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells you begin to become plus. That's why S.S.S., since 1826, has meant to thousands of underweight men and women a plus in their strength. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear.

More red-blood-cells! S.S.S. aids Nature in building them by the million! There are no unproven theories about S.S.S., the scientific results of each of its purely vegetable medici-nal ingredients are admitted by authorities. Begin taking S.S.S. today. It will give you more energy, vitality and vigor and a more up and go-

The national fund acts as an insurance policy which can be drawn upon within a few hours to meet the immediate needs before there is time to collect funds from individuals. Professor Arthur E. Morgan of Antioch College recently said of the Red Cross:-

"Sometime during the next year or two there will be a great disaster, from earthquake, flood or fire, or all combined. We do not know now when that disaster will occur, nor how terrible it will be, but judging by the past we know it will come. And before the embers are cold or the streets are dry, there will have arrived on the scene a group of men and women who know what to dowhat to do first, and next and next. Further investigation of the cause of the explosion disclosed that a slow leak in the gas connection in the pantry had allowed gas to collect overnight.

MODISH MITZI-You'll Find Them Model Models

By JAY V. JAY

Mitzi is lending her services to a charitable association. She poses at a local shop for a worthy cause that is not her own Here she wears a woolen coat appliqued with bright colored designs. Notice the full sleeves and the shoulder. Irresistible, isn't it?

The lace is finely pleated so that the design is brought together more closely. Polly wears a taffeta dress with a snug bodice and a very full skirt. Roses are used to trim the skirt and the hat alike.

This is the sort of dress that fits Polly charmingly. You know Polly's type, slim, young, and fair. You know, too, this style, low waist, snugly fitting, and full skirt. A flower poses on the shoulder and the skirt is decorated with appliqued patterns of flowers. Pastel shades, of course.

Polly takes to the straight line styles jequally well. Witness this perfectly straight dress except for the interruption of tucks. The collar of lace falls in an extended jabot. You'll find Mitzi and her friends model models any time, any place, anywhere.

I'm tired of the yelper who come to me door and wails of Si Helper who owns a big store, I know that my wagon will soon fall apart, it's nothing to brag on-a wreck of a cart. But because neighbor Slackard achieved good success and now owns a Packard I'll vell no distress

All hail to the fellow who forges ahead at playing a cello or baking good bread. More luck to the chappie who triumphs does win; who makes the world happy with cars made of tin. The man whose endeavor is crowned with success right now and forever I'm going to bless.

He strives every minute, he takes a big chance; though some won't go in it, he makes an advance. Perhaps he's a tinker whose dreams have come true of making a sinker to fish in beef stew. Without him the vilalge would be in a fix; the streets would be tillage and brians and sticks.

But while he is winning and gaining his spurs, the knockers are grinning and barking like curs. Though one is a dandy they fain would relate to anyone handy just why he's a skate. Their tongues are kept wagging, their voices are high, when one should be bragging, they're making you cry.

But big men keep rowing, pursuing their course, achieving and growing in wisdom and force. They always are standing to help a good cause and seldom demanding the people's applause. They always are clearing and making new trails, they're lifting and building and up are their sails.

Yea, I'm for the winner, the fellow who dares, who cooks the dinner or raises fine mares. Jack Dempsey's a doodle forever with me, because no casoodle has put him to seal Hen Ford is a daisy for building his bus, though some say he's crazy and loudly do cus. I'm glad we've a charter of fellows who row; who step on the starter and make the world go.

you are traveling along towards the

cemetery with a stubborn tight old cough that lingers on and on with the most persistent devilishness then you need a real cough medicine and the realest destroyer of tough old coughs is Pronchuline Emulsion. The cough may be so tantalizing that you can't sleep nights and your days may be filled with racking torture, yet that's just the kind of a cough that Bronchuline likes to tackle

KIDNEYS BOTHER

Take a Tablespoonful of Salts if Back Pains or Bladder Is Irritated

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times

To help peutralize these irritating acids, to help cleanse the kidneys and flush off the body's urinous waste. get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon with lithia, and has been used for years to help flush and stimulate sluggish kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder

Jad Salts is inexpensive; can no injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.

A NOTABLE RETREAT

WHEN Russia turned Bolshevik in furtherance of the communistic idea it was sought to abolish all forms of curreacy. In order to achieve this result bills were printed in such abundance as to make them worthless. In making the money in circulation worthless the soviet won a victory, but it did not succeed in convincing all the Russians that a currency is an evil. Communism tried hard enough to establish conditions under which money would be useless, but utterly

failed. The masses still ciung to the idea that a measure of values, a convenient medium of exchange, is indispensable, Without it trade languished.

Some time ago the soviet authorities admitted their defeat and tried to reestablish a stable currency. Another step in furtherance of that end is now announced. Gold coinage will be resumed. Bills with the soviet flat may suggest a doubt, but gold of a certain fineness is an international coin. It needs no stamp to guarantee its value. Most things Russian are subject to suspicion at present, but the gold tchervontsi will be as current as a gold dollar. Therein is the value of a gold coin. It speaks the same language everywhere.

Experience is a faithful teacher. Bolshevist theories believed they could break the customs of ages and establish a government on the principle that one who had should give freely to another who hadn't. They reckoned without consulting the one who had. As a substitute barter was found too cumbersome. Now a complete retreat is made and the standard of currency of the capitalistic nations is adopted without even so much as an apology. It constitutes a notable recession from communistic theory.

A WORTHY TRIBUTE

MOVEMENT is on foot to obtain the nomination of Edwin Booth for election to the Hall of Fame at the conting quinquennial election.

It would be a worthy tribute, not only to the American stage, but to universal scholarship and the highest attributes of American manhood if this agitation should prove success-

The Hall of Fame enshrines in memory those who, gone from us forever, represented each in his sphere the best in art or achievement. If this be the test, there is no more virile candidate today than Edwin Booth for entrance into this congregation of the immortals.

It was not alone the dramatic genius of Booth which endeared him to his fellows and gave him lasting fame. His personality in private life, as well as in public, was of that order which gives nobility to the race of men. In addition to this, his art was as great as his head; for he was a philanthropist as well as a philosopher.

Time has not dimmed the luster of his fame. He still stands pre-eminent as the master exponent of the spoken drama in America, and perhaps in the world since his advent upon the stage. At any rate, his name in a world-wide sense survives with the names of Irving and Salvini; an incomparable trio in dramatic history, strangely ordained to be contemporaneous.

If we are to honor manhood, as well as art, with all that is worthy of the higheer attribute of civilization which we designate as culture, Edwin Booth is pre-eminently qualified for the honor now sought to be bestowed upon his memory, and the American public will suffer grievous disappointment if the distinction proposed for him is not conferred.

MODISH MITZI-You'll Find Them Model Models

By JAY V. JAY

Mitzi is lending her services to a charitable association. She poses at a local shop for a worthy cause that is not her own Here she wears a woolen coat appliqued with bright colored designs. Notice the full sleeves and the shoulder. Irresistible, isn't it?

Lace and ribbon, that's all it is. And Mitzi wears it exceedingly well. The lace is finely pleated so that the design is brought together more closely. Polly wears a taffeta dress with a snug bodice and a very full skirt. Roses are used to trim the skirt and the hat alike.

This is the sort of dress that fits Polly charmingly. You know Polly's type, slim, young, and fair. You know, too, this style, low waist, snugly fitting, and full skirt. A flower poses on the shoulder and the skirt is decorated with appliqued patterns of flowers. Pastel shades, of course.

Polly takes to the straight line styles jequally well. Witness this perfectly straight dress except for the interruption of tucks. The collar of lace falls in an extended jabot. You'll find Mitzi and her friends model models any time, any place, anywhere.

Oldest Prehistoric City Unearthed in United States

Older than King Tut or new fourth dynasty tomb just unearthed in Egypt is the prehistoric city which has been partly dug out of sandhills in the Moapa district of southern Nevada by expedition of American Indian Museum and Heye Foundation of New York. Photo shows work of excavation going on. The ruins indicate that the primitives played dice and buried dead under floors of homes.

BRANCH RICKEY SAYS HE IS SATISFIED HIS CARDINALS ARE GOOD

it was his custom to play solitaire but, after a thorough shuffling of the cards for 1925, he neatly cut the deck and turned up aces for the infield, outfield and behind the bat.

He announced that he was entirely satisfied with what he had uncovered for these departments but as to the pitching staff-well, that wasn't exactly a pleasant subject for discussion. In fact, Mr. Rickey showed an inclination to talk learnedly and at length on any and all subjects other than pitching. Nor would he permit himself to be pinned down to a prediction as to St. Louis' probable DAWSON OF ANTIOCH standing among the clubs at the constanding among the clubs at the conclusion of the 1925 season. "The club has hitting power. When I say this, the fans naturally picture Hornsby. But we have other good hitters besides Hornsby. On that account I will make the prediction that you will see the Cards among the leaders in runs scored at the end of the season.

"That naturally puts it up to the pitching and the defense in general. "I believe my pitching will be improved this season. I look for Duster Mails to deliver in his turn and we have another fine prospect in Rhem, a young right-hander."

Stuart are the only veterans of the staff with whom Rickey plans to dally this year. Leo Dickerman, obtained from the Dodgers, will get another chance, however. This leaves a place or two open.

In addition to Hornsby and Jim

WEEKLY SERMON

"NOT POSSIBLE TO CLASSIFY"

I'll vell no distress.

I'm tired of the yelper who come to me door and wails of Si Helper who owns a big store, I know that my wagon will soon fall apart, it's nothing to brag on-a wreck of a cart. But because neighbor Slackard achieved good success and now owns a Packard

BY MACK SAUER

All hail to the fellow who forges ahead at playing a cello or baking good bread. More luck to the chappie who triumphs does win; who makes the world happy with cars made of tin. The man whose endeavor is crowned with success right now and forever I'm going

He strives every minute, he takes a big chance; though some won't go in it, he makes an advance. Perhaps he's a tinker whose dreams have come true of making a sinker to fish in beef stew. Without him the vilalge would be in a fix; the streets would be tillage and brians and sticks.

But while he is winning and gaining his spurs, the knockers are grinning and barking like curs. Though one is a dandy they fain would relate to anyone handy just why he's a skate. Their tongues are kept wagging, their voices are high, when one should be bragging, they're making you cry.

But big men keep rowing, pursuing their course, achieving and growing in wisdom and force. They always are standing to help a good cause and seldom demanding the people's applause. They always are clearing and making new trails, they're lifting and building and up are their sails.

Yea, I'm for the winner, the fellow who dares, who cooks the dinner or raises fine mares. Jack Dempsey's a doodle forever with me, because no caboodle has put him to seal Hen Ford is a daisy for building his bus, though some say he's crazy and loudly do cus. I'm glad we've a charter of fellows who row; who step on the starter and make the world go.

Eight teams are entered from cities, including London, Greenville, Marion, and two teams from Washington C. H., and Xenia stands an excellent chance of copping the championship as the local court artists have not lost a game to a junior high team this year.

Four games will be played in the tournament which starts at 9 o'clock Saturday morning after the drawings are made. The semi-finals will be run off in the afternoon and the finals that night

Junior High will take eight players to the tournament and will probably start with the regular lineup which will be Buell and E Davidson at forwards. Yeakley at the jumping stytion, and Gibney and Snell guards. Zell, Milburn and Smitle will be held in reserve.

Washington C. H. won the divisional tournament last year. Tickets for the games may be pur chased at the gate for twenty-five cents entitling the holder to witness
